

Cygnostik
(Chris R. mish)

Industrial.DJ / EBM-Radio.com

Around the turn of the millennium Cygnostik founded the original, primarily US based [EBM-Radio.com](#) after keeping a very low profile. Over the last few years the [Industrial.DJ](#) podcast & [Mixcloud](#) show were created to post recordings of live DJ mixes. Thus finding another outlet to promote artists, spread the sound of amazing dark styles & genres of music, creating opportunities to shed light on new talent and spread the word about releases from scene newcomers and classic favorites alike. Working with artists & labels to in an effort to bring artists and fans together is ultimately the most fulfilling work a music lover can do with the ongoing satisfaction from improving and expanding creative mixing skills. The hope is to one day return to either terrestrial or satellite radio for maximum reach into the ears and hearts of the world. It may be time to do more even if that means not being able to stay under the radar forever.

Primary Genres: Industrial, EBM, Goth, Synthpop, Darkwave, Futurepop + related styles & sub-genres and parent genres.
